DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 9, filed 1/13/06, with respect to the 35 U.S.C. 112, first paragraph rejection of claims 2-8 have been fully considered and are persuasive. The rejection of claims 2-8 under 35 U.S.C. 112, first paragraph has been withdrawn.
2. Applicant's arguments filed 1/13/06 with respect to the objection of claim 3 have been fully considered but they are not persuasive. Claim 3 fails to further limit the subject matter of claim 2 properly.
3. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 1 requires that on initialization, switchover occurs to the input (5, 6) whose signal exhibits the highest level, regardless of any other factor (lines 17-18). Claim 3 states that on initialization, switchover occurs to one of inputs (5, 6) **only** (emphasis added) if the level of the corresponding signal is sufficient to determine the azimuth of the aircraft. Claim 3 depends on claim 1, creating an impossible scenario where at the same time switchover is both required (by claim 1) and prohibited (by claim 3). For example, in the case where input 5 exhibits the highest level, but the level is not sufficient to determine the azimuth, then switchover is at the same time required by claim 1, but prohibited by claim 3.

Allowable Subject Matter

4. Claims 1-2, 4-8, 12-13 are allowed.
5. Claim 3 would be allowable if rewritten in independent form including all of the limitations of the base claim (with the exception of the conflicting limitation) and any intervening claims.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
